

## Outdoor Intercom Unit with Linux OS

<b>Product Code</b>	ITR641-0001
<b>Power Supply</b>	12 V, PoE
<b>Power Consumption</b>	1.5 W (Standby Power), 3 W (Rated Power)
<b>Communication</b>	TCP/IP, SIP, VOIP, RTSP
<b>Operating System</b>	Linux
<b>CPU</b>	1 GHz
<b>Camera</b>	1 MP CMOS
<b>Memory</b>	64 MB SD Ram, 128 MB Flash
<b>Button</b>	One Touch / Mechanical button
<b>Reader</b>	20,000 IC/ID Cards
<b>Door Relay Control Method</b>	DTMF, HTTP, IC/ID Card
<b>Video Codec</b>	H.264
<b>Audio Codec</b>	G.711
<b>Camera</b>	1/4" MP CMOS
<b>Night Vision</b>	LED Night Vision
<b>Type of Protection</b>	IP 65
<b>Temperature Range</b>	Operation (-5°C...55°C) Storage (-10°C...70°C)
<b>Maximum Air Humidity</b>	< 90 RH
<b>Material</b>	Aluminum Alloy / Tempered Glass Panel
<b>Colour</b>	Gold, Black
<b>Dimensions</b>	Product : 99.5 x 160 x 47 mm (W x H x D) Mount Box : 94 x 151 x 45 mm (W x H x D)
<b>Configuration</b>	via Webpage

### DESCRIPTION

Interra ITR641-0001 door front SIP intercom unit can be used to provide intelligent access control in places such as villas, residences, offices etc. With the card reader feature, you can provide access control and a high level of security in your building. Thanks to the high image quality, it is easier to recognize the guests in speeches made in dark environments with the night vision feature. Black and gold housing is quite compatible to align with the design of the mounting location such as a garden wall, door wall etc.

### GENERAL FEATURES

### DIMENSIONS

### FUNCTIONS

ITR641-0001 is an Outdoor Panel Unit that is mainly used for making interacting with the related indoor intercom unit. ITR641-0001 product features are described below :

- Call indoor monitor by one button.
- Support unlocking by IC/ID access control card or DTMF.
- IC/ID card information can be registered on outdoor panel. Registration information of max. 20,000 IC/ID cards can be stored.
- Support unlocking by Exit button and door magnetic detection.
- Support LED light for night vision.
- Support POE power supply (optional).

### INSTALLATION

## CONNECTION DIAGRAM & FEATURES

The following figure, shows a proper location of the installation :

**!** During the installation, the camera should be 1450-1550 mm above the ground. The camera tether for photographing the human face should be the top priority.

### System Diagram:

The following figures shows the connectors of the ITR641-0001.

### Power / Unlock Signal Output:

Power input interface connects with 12 V DC power adapter. Wiring diagram is as follows:

### Switching Value Output:

It provides a contact signal of switching value and needs, independent power supply for the lock. The electric lock can be connected in two ways including a normally-open connection and a normally-closed connection. A wiring diagram is as below:

### Exit Button/Door Magnetic Switch:

Connect with Exit button and door magnetic switch; DIN is reserved terminal, please don't connect it.

### RS-485:

Connect with RS-485 device; RS-485 interface can output 12 V / 100 mA power supply. If RS-485 equipment to be connected does not require the power supply, no need to connect +12 V.

### Network:

Connect to management center, indoor monitor or other network device through network switch.

## TROUBLESHOOTING

Some common failures and troubleshooting methods are listed for your reference. In case of failure which cannot be repaired, do not disassemble or repair the product by yourself. Please contact the after-sales technical service department.

- When setting villa outdoor panel, please make sure building No. and unit No. of the outdoor panel are the same as the ones of indoor monitor.
- Please check whether the network is connected.
- Please check if there are any security settings for the network.
