Smart Home

Lighting and Dimming
Experience the uniqueness of smart lighting at your home with Interra lighting and dimming solutions. Create personal lighting scenarios suitable for your own lifestyle.

HVAC Solutions
Did you know that building automation systems can save approximately 30% on the energy consumption of buildings? Heating and cooling are some of the most significant parts of the energy costs in residential. With the reliable integration of the Interra HVAC solutions, you can control the operating time of your heating and cooling systems as your wish.

Smart Scenarios
Your life, your choices. With Interra smart home technology, you can create personalized scenarios and activate them with one click to enjoy the comfort you desire in your sweet home. Do you want your home to welcome you every day at 18:00 with its lights turned on, curtains closed and temperatures reached 25 degrees? It's done.

Mobile Control

Curtains / Blinds / Gates
You can control and arrange scenarios for most of the devices working with motorized systems like curtains, blinds, and gates with Interra smart home technology.

Mobile Solutions
InterraPro application allows you to control your smart home with your Android or iOS mobile devices. All features like automation scenarios, concierge services, alarms, cameras, and intercom communication can be controlled wherever you are and you can get instant notification from your home if someone rings the bell or if there is an emergency situation.

Security Integrations

- Camera Control
- Burglar Alarm
- Fire Alarm
- Water Flood Detector
- Gas Leak Sensor
- And many more...

SIP / VoIP Based Communication
You can communicate with your guests via IP-based intercoms at the door of the building and touch panels inside the building.

Concierge and Residence Services

The services menu of Interra Touch Panels and InterraPro mobile application provide unlimited solutions for residence management and your needs at home. The services you have required by using Interra devices are instantly sent over to the reception or building management of the residence and also provide a communication system between management and residents.
