## Arcelik Air Condition Units AC - KNX Gateway Compatibility List

## 1. Arcelik AC KNX Gateway Compatibility List

In this document, the compatibilities of Arcelik air conditioners with ITR830-3006 are described.

Specified models in the document are referred **indoor units**. If the last user wants to operate an AC unit with a model number not specified in this document might not be compatible with ITR830-3006. Models should not be used without checking model compatibility. The user should contact with supplier for this. Moreover, we recommend that users pay attention to the possible updates of the document.

## 2. Compatibility Table

All of the models described in the table below refer to only indoor units. If a model number is not specified in this list, please contact us for a compatibility check. The connection diagram between the air conditioner interface and the air conditioner indoor unit is detailed in the ITR830-3006 datasheet. For more detailed information about the AC indoor units, you can contact Arcelik.
